

## 6-O-trans-Cinnamoylphlorigidoside B

## Chemical Properties

|                   |                                                                                                                     |
|-------------------|---------------------------------------------------------------------------------------------------------------------|
| CAS No. :         | 1246012-25-8                                                                                                        |
| Formula:          | C <sub>28</sub> H <sub>34</sub> O <sub>14</sub>                                                                     |
| Molecular Weight: | 594.566                                                                                                             |
| Storage:          | Powder: -20°C for 3 years   In solvent: -80°C for 1 year<br>Actual storage temperature shall be subject to the COA. |

## Biological Description

|               |                                                                                                                                                                                                                                |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description   | 6-O-trans-Cinnamoylphlorigidoside B is a natural product of Callicarpa, Verbenaceae. The catalog number is TN3192 and the CAS number is 1246012-25-8. 6-O-trans-Cinnamoylphlorigidoside B can be used as a reference standard. |
| Targets(IC50) | Others                                                                                                                                                                                                                         |

## Preparing Stock Solutions

|       | 1mg       | 5mg       | 10mg       |
|-------|-----------|-----------|------------|
| 1 mM  | 1.6819 mL | 8.4094 mL | 16.8189 mL |
| 5 mM  | 0.3364 mL | 1.6819 mL | 3.3638 mL  |
| 10 mM | 0.1682 mL | 0.8409 mL | 1.6819 mL  |
| 50 mM | 0.0336 mL | 0.1682 mL | 0.3364 mL  |

Please select the appropriate solvent to prepare the stock solution, according to the solubility of the product in different solvents. Please use it as soon as possible.

Note: The dilution table applies only to solid products. For liquid products, please calculate the stock solution based on the stated concentration and/or density.
