

HLDA-221

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	HLDA-221 is a heterobifunctional small molecule known as a Regulated Induced Proximity Targeting Chimera (RIPTAC), promoting the formation of a stable ternary complex that links a cancer tissue-specific target protein with a ubiquitously expressed essential protein, selectively inducing cell death in cells with the target protein [1].
