

INGAP Protein, Mesocricetus auratus, Recombinant (His)

General Information

Synonyms:	INGAP; Islet neogenesis-associated protein; Pancreatic beta cell growth factor
Protein Construction:	27-175 aa
Species:	Mesocricetus auratus
Expression Host:	E. coli
Accession:	Q92778
Molecular Weight:	22.8 kDa (predicted)
AA Sequence:	EESQKKLPSSRITCPQGSVAYGSYCYSLILIPQTWSNAELSCQMHFSGHLAFLSTGEITFVSSLVKNSLTAYQYI WIGLHDP SHGTL PNGSGWKWSSSNVLT FYNWERNPSIAADRGYCAVLSQKSGFQKWRDFNCENELPYICKF KV

QC Testing

Biological Activity:	Activity has not been tested. It is theoretically active, but we cannot guarantee it. If you require protein activity, we recommend choosing the eukaryotic expression version first.
Purity:	> 85% as determined by SDS-PAGE.
Endotoxin:	< 1.0 EU/μg of the protein as determined by the LAL method.
Formulation:	If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.

Preparation and Storage

Reconstitution:

Reconstitute the lyophilized protein in sterile deionized water. The product concentration should not be less than 100 μg/mL. Before opening, centrifuge the tube to collect powder at the bottom. After adding the reconstitution buffer, avoid vortexing or pipetting for mixing.

Stability & Storage:

Lyophilized powders can be stably stored for over 12 months, while liquid products can be stored for 6-12 months at -80°C. For reconstituted protein solutions, the solution can be stored at -20°C to -80°C for at least 3 months. Please avoid multiple freeze-thaw cycles and store products in aliquots.

Actual storage temperature shall be subject to the COA.

Shipping:

In general, lyophilized powders are shipped with blue ice, while solutions are shipped with dry ice.

Protein Background

Constituent of ilotropin, which is a partially purified preparation of cellophane wrapping (CW) pancreata. Capable of initiating duct cell proliferation, a prerequisite for islet neogenesis.
