

MYC Tag Magrose Beads

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Store at 4°C

Actual storage temperature shall be subject to the COA.

Biological Description

Description

Targetmol's MYC Tag Magrose Beads covalently bind a mouse-derived anti-MYC monoclonal antibody to the surface of the agarose beads, which specifically binds to MYC-tagged proteins.

Targetmol's MYC Tag Magrose Beads can be used for immunoprecipitation (IP), co-immunoprecipitation (Co-IP) or Pull-down assays of proteins and protein complexes, as well as for purification of MYC tagged fusion proteins. It is suitable for antigenic samples from cell lysates, cell secretion supernatants, serum, ascites and other sources.

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins
