

## Magrose Beads Protein A/G

### Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage:

Store at 4°C

Actual storage temperature shall be subject to the COA.

### Biological Description

Description

TargetMol's Protein A/G Agarose Beads covalently bind Protein A/G in high density to the surface of agarose beads, providing excellent antibody binding and low non-specific protein adsorption. TargetMol's Protein A/G Agarose Magnetic Beads are suitable for immunoprecipitation (IP) and co-immunoprecipitation (Co-IP) of proteins and protein complexes, as well as for antibody purification. It is suitable for immunoprecipitation reactions of antigens in samples such as cell lysates, cell secretion supernatants, serum, and ascites.
