

C-reactive protein

Chemical Properties

CAS No. : 9007-41-4

Formula:

Molecular Weight:

Keep away from moisture

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description

C-reactive protein (CRP) is a highly conserved plasma protein that is secreted by the liver in response to various inflammatory cytokines. It binds to damaged tissues, nuclear antigens, and certain pathogens in a calcium-dependent manner. CRP is utilized in research to detect inflammation and to study immune system activation.

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins
