

## Amlenetug

## Chemical Properties

CAS No. : 2850367-41-6

Formula:

Molecular Weight:

Store at low temperature

Storage: Store at -20°C

Actual storage temperature shall be subject to the COA.

## Biological Description

Description	Amlenetug (Lu AF82422) is a human monoclonal antibody targeting $\alpha$ -synuclein that is in development for multiple system atrophy, demonstrating robust inhibition of $\alpha$ -synuclein seeding induced by diverse fibrillar assemblies in mouse primary neurons and by aggregates derived from MSA brain homogenates, while in vivo studies show that both intracerebral co-injection and peripheral administration effectively suppress $\alpha$ -synuclein seeding and pathological propagation.
Targets(IC50)	Others

**Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins**
