

Anti-DcR1/TRAILR3 Antibody (60829)

Product Details

Ig Type:	Rabbit IgG
Reactivity:	Human
Conjugation:	Unconjugated
Clone:	60829
Purification:	Protein A

Applications

Verified Activity:	Flow cytometric analysis of Human TNFRSF10C(CD263) expression on human whole blood granulocytes. Cells were stained with purified anti-Human TNFRSF10C(CD263), then a FITC-conjugated second step antibody. The fluorescence histograms were derived from gated events with the forward and side light-scatter characteristics of viable granulocytes.
Application:	FCM
Recommended	FCM: 1:25-1:100

Properties

Stability & Storage:	Store at 2°C-8°C for 1 month. Store at -20°C or -80°C for 12 months. Avoid repeated freeze-thaw cycles. Preservative-Free.
Shipping:	Shipping with blue ice.

Antigen Details

Immunogen:	Recombinant Protein: Human TRAILR3/TNFRSF10C Protein (TMPY-04722)
Antigen Species:	Human
Synonyms:	DCR1-TNFR;DCR1;CD263;tumor necrosis factor receptor superfamily member 10c;TRAILR3;TRID;TRAIL-R3;LIT

Research Background

TNFRSF10C CNV in patients with CRC is associated with distant metastatic disease. A high frequency of CGI methylation in the TNFRSF10C promoter results in inactivation of the gene and enhancement of tumor growth in most PC cell lines (except CFPAC-1). Inactivation of TNFRSF10C by CpG island (CGI) hypermethylation can play an important role in PC progression and be potentially useful as a diagnostic marker and a new therapeutic approach for PC.
