

## Anti-SuperNuclease Antibody (30345)

### Product Details

Ig Type:	Rabbit IgG
Reactivity:	Serratia marcescens
Conjugation:	Unconjugated
Clone:	30345
Purification:	Protein A

### Applications

Application:	ELISA
Recommended	ELISA: 1:5000-1:10000

### Properties

Stability & Storage:	Store at 2°C-8°C for 1 month. Store at -20°C or -80°C for 12 months. Avoid repeated freeze-thaw cycles. Preservative-Free.
Shipping:	Shipping with blue ice.

### Antigen Details

Immunogen:	Recombinant Protein: Serratia marcescens Endonuclease
Antigen Species:	Serratia marcescens

### Research Background

SuperNuclease® is a genetically-engineered endonuclease manufactured by Sino Biological. SuperNuclease® is a nonspecific nuclease with high activity, capable of completely digesting RNA and DNA (single-stranded, double-stranded, linear, circular and supercoiled forms, that no fewer than five phosphate residues) into 5'-monophosphate-terminated oligonucleotides of 3-5 bases in length. SuperNuclease® can be removed by various purification methods.
