

## Cergutuzumab

### Chemical Properties

CAS No. : 1622305-37-6

Formula:

Molecular Weight:

Storage: Store at low temperature  
Store at -20°C

Actual storage temperature shall be subject to the COA.

### Biological Description

Description

Cergutuzumab (RG7813) is a tumor-targeted immunocytokine comprising a humanized anti-CEA monoclonal antibody fused to an engineered interleukin-2 variant (IL-2v). By specifically binding to Carcinoembryonic Antigen (CEA) on tumor cells, Cergutuzumab delivers IL-2v directly to the tumor microenvironment. This selectively activates cytotoxic CD8+ T cells and NK cells while minimizing the systemic toxicity typically associated with wild-type IL-2 therapy.
