

## Angiotensin I-BSA

### Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

### Biological Description

Description	Angiotensin I-BSA is a hapten-carrier protein conjugate formed by coupling Angiotensin I to bovine serum albumin (BSA). As a hapten, Angiotensin I alone cannot induce an immune response and must be conjugated to a large molecular protein to become a complete antigen with immunogenicity. The sequence of Angiotensin I-BSA is DRVYIHPFHL-BSA.
Targets(IC50)	RAAS

**Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins**
