

Gastrin(1-17)-BSA

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

| | |
|-------------|--|
| Description | Gastrin(1-17)-BSA is a hapten-carrier protein conjugate formed by coupling Gastrin(1-17) to bovine serum albumin (BSA). As a hapten, Gastrin(1-17) alone cannot induce an immune response and must be conjugated to a large molecular protein to become a complete antigen with immunogenicity. The peptide partial sequence is Pyr-GPWLEEEEEAYGWMDF-NH ₂ . Gastrin(1-17)-BSA may be supplied as a lyophilized powder or as a solution. The solution is prepared in 0.01M TBS (pH 7.4) buffer at a typical concentration of 1mg/mL. |
