

Anti-Histamine Polyclonal Antibody

Product Details

Ig Type:	IgG
Reactivity:	(predicted:Species independent)
Purification:	Protein A purified

Applications

Application:	ELISA
Recommended	ELISA: 1:5000-10000

Properties

Stability & Storage:	Store at -20°C or -80°C for 12 months. Avoid repeated freeze-thaw cycles.
Shipping:	Shipping with blue ice.

Antigen Details

Immunogen:	KLH conjugated Histamine
Synonyms:	1H-Imidazole-4-ethanamine;2-(4-Imidazolyl)ethanamine;4-(2-aminoethyl)-imidazol; β -Aminoethylglyoxaline;4-Imidazoleethylamine;5-Imidazoleethylamine;Eramine
Biology Area:	Macrophage / Inflamm.,Other secreted molecules

Research Background

Histamine is located in mast cells, endocrine cells of the gut, blood cells and in some cells of the peripheral and central nervous system. Histamine is a potent vasodilator when secreted by mast cells found in various tissues as a result of allergic hypersensitivity or inflammation. Histamine causes running nose, sneezing and itching, and narrows the airways in the lungs. In the central nervous system, Histamine is putative neurotransmitter. In the brain, its highest content has been found in the hypothalamus and in certain areas of the mesencephalon. CAS: 51-45-6

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins
