

AD-mix- α

Chemical Properties

CAS No. : 153130-59-7

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description

AD-mix- α is an organic compound mixture commonly employed to distinguish and identify asymmetric carbon atoms in chiral compounds. It consists of catalyst-active metal-containing compounds and chiral ligands. AD-mix- α is extensively used in various organic synthesis reactions, including hydrogenation, addition, and carbonylation, to enhance yield and minimize by-products. Although it lacks direct applications in medicine, it plays a crucial role in the pharmaceutical industry and
