

Anti-HA Tag Antibody (5Y557)

Product Details

Conjugation:	Unconjugated
Clone:	5Y557
Purification:	Affinity purification using immunogen.

Applications

Verified Activity: 1. Western blot analysis of HA Recombinant protein, using TMAC-01762 diluted at 1:2,000.

Application:	WB
Recommended	WB: 1:1000-3000

Properties

Stability & Storage:	Store at -20°C or -80°C for 12 months. Avoid repeated freeze-thaw cycles.
Shipping:	Shipping with blue ice.

Antigen Details

Synonyms: HA epitope tag;HA2;Hemagglutinin HA1 chain;HA1;HA-tag;hemagglutinin;Hemagglutinin HA2

Research Background

Human influenza hemagglutinin (HA) is a surface glycoprotein required for the infectivity of the human virus. The HA tag is derived from the HA-molecule corresponding to amino acids 98-106 has been extensively used as a general epitope tag in expression vectors. Many recombinant proteins have been engineered to express the HA tag, which does not appear to interfere with the bioactivity or the biodistribution of the recombinant protein. HA tag antibody is a highly sensitive and affinity monoclonal antibody applicable to HA-tagged fusion protein detection.
