

ACC Assay Kit (Spectrophotometry)

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder -20°C for 3 years
In solvent -80°C for 2 years

Actual storage temperature shall be subject to the COA.

Biological Description

Description

Acetyl-CoA carboxylase (ACC) catalyzes the carboxylation of acetyl-CoA to malonyl-CoA in organisms, and it is a key enzyme in the synthesis of fatty acids and many secondary metabolites. To a certain extent, the activity of ACC determines the synthesis rate of fatty acids and the level of oil content.
