

AND Assay Kit (Microanalysis)

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder -20°C for 3 years
In solvent -80°C for 2 years

Actual storage temperature shall be subject to the COA.

Biological Description

Description

Cytochrome P450 enzymes are a group of enzyme systems that play an important role in the metabolism of exogenous substances, especially drugs and toxicants. Aminopyrine-N-demethylase (AND), as an important member of the P450 enzyme system, corresponds to the CYP3A4 subtype and is closely related to the demethylation of drugs.
