

AQP4 (205-215) TFA

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Keep away from moisture

Storage:

Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	AQP4 (205-215) TFA is a fragment of the water channel protein-4 (AQP4). AQP4 acts as an autoimmune antigen in neuromyelitis optica, upregulating and presenting in B cells upon binding with CD40. AQP4 is associated with neuromyelitis optica (NMO), an autoimmune inflammatory disease of the central nervous system (CNS).
Targets(IC50)	Aquaporin

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
