

LSD acetate

## Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Keep away from moisture  
Powder: -20°C for 3 years | In solvent: -80°C for 1 year  
Actual storage temperature shall be subject to the COA.

## Biological Description

Description

LSD acetate is a polypeptide that specifically targets C8161 melanoma lymphatic vessels without binding to normal lymphatic vessels or tumor blood vessels. When conjugated with pro-apoptotic peptides, LSD acetate can reduce the number of tumor lymphatic vessels. It is useful in research focused on targeted therapy and diagnostics for tumor lymphatic vessels.
