

FabCOUPER protease

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	FabCOUPER protease is a serine protease that is recombinantly expressed in E.coli and features a 6xHis tag at the C-terminus. It specifically cleaves human IgG1 at a single site above the hinge, efficiently generating intact Fab and Fc fragments within two hours without the need for reducing conditions.
Targets(IC50)	Serine Protease

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
