

Benzyl-PEG7-Ots

Chemical Properties

CAS No. :

Formula: C₂₈H₄₂O₁₀S

Molecular Weight:

Keep away from direct sunlight

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Benzyl-PEG7-Ots is a PEG-based PROTAC linker used in the synthesis of PROTAC molecules.
Targets(IC50)	PROTAC Linker
In vivo	<p>Certainly! I'll revise the description for you.</p> <p>The compound exhibits significant activity by targeting proteins for degradation via the ubiquitin-proteasome system. It functions as a bifunctional molecule that links the target protein to the E3 ubiquitin ligase, facilitating its tagging with ubiquitin molecules. The 'PROTAC Linker' is crucial for achieving selectivity and efficiency in this process.</p>
