

## Phenylethanolamine N-methyl transferase, bovine

### Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

### Biological Description

Description	Phenylethanolamine N-methyl transferase, bovine, is a biocatalyst and a pivotal enzyme in emerging biocatalyst technology. Enzyme engineering focuses on improving reaction kinetics, substrate selectivity, and activity in extreme conditions (e.g., low or high pH). Modifying these enzymes to introduce stimulus responsiveness also enables dynamic control of their activity.
Targets(IC50)	Endogenous Metabolite

**Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins**

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
