

N-Acetylgalactosaminyltransferase 14

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	N-Acetylgalactosaminyltransferase 14 (GALNT14) is a mucin-type glycosylation enzyme polypeptide that enhances the migration of ovarian cancer by modifying Mucin 13 (MUC13). GALNT14 regulates the O-glycosylation and stability of MUC13, thereby facilitating the malignant behavior of ovarian cancer cells.
Targets(IC50)	Endogenous Metabolite

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
