

AMK218

## Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

## Biological Description

Description	AMK218 (Immobilized amoxicillin acylase) serves as a biocatalyst and is a key enzyme in new biocatalyst technologies. Enzyme engineering focuses on improving enzyme reaction kinetics, substrate selectivity, and activity under extreme conditions (e.g., low or high pH). Modifications that introduce stimulus responsiveness enable dynamic control of their activity.
Targets(IC50)	Endogenous Metabolite

**Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins**

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
