

Human leukocyte esterase

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Human leukocyte esterase is a biocatalyst and a pivotal enzyme in new biocatalyst technology. Enzyme engineering focuses on improving the kinetics of enzyme reactions, substrate selectivity, and activity under extreme conditions (such as low or high pH). By incorporating stimuli-responsive modifications to these enzymes, dynamic control of activity also becomes feasible.
Targets(IC50)	Endogenous Metabolite

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only· Not for Human or Veterinary or Therapeutic Use
