

Anti-Complement Factor P/Properdin Antibody

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Store at low temperature
Store at -20°C

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Anti-Complement Factor P/Properdin Antibody is a specialized monoclonal antibody target the human properdin protein with high affinity and selectivity, inhibition of the alternative complement pathway activation by disrupting the stabilization of the C3 and C5 convertase complexes across various preclinical experimental models.
Targets(IC50)	Complement System
In vitro	In hemolytic assays, Anti-Complement Factor P/Properdin Antibody inhibited rabbit erythrocyte lysis with an IC50 of 2.6 nM and blocked alternative pathway activation [1].
