

Bovine Factor XIa

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Bovine Factor XIa is an enzyme involved in the intrinsic pathway of blood coagulation. It exhibits high selectivity with a minimum substrate recognition site of at least five residues. Bovine Factor XIa is more reactive than Bovine Factor IXa and can cleave all peptides containing the factor IX activation site sequence.
Targets(IC50)	Others

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins
