

HiBiT tag acetate

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Keep away from moisture

Storage:

Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	HiBiT tag acetate is a complementary peptide (VSGWRLFKKIS) with high affinity for LgBiT. It fuses with the G β subunit of the receptor. The complementation of LgBiT and HiBiT enhances the stability of ETR and G proteins. HiBiT can attach to target proteins (GFP) to quantify transport to the cytosol.
Targets(IC50)	Others

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only· Not for Human or Veterinary or Therapeutic Use
