

pGk13a TFA

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Keep away from moisture

Storage:

Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	pGk13a TFA is an amphiphilic membrane-labeling probe containing an azide group (the azide group can bind with a fluorophore). It enables high-resolution imaging of cell membranes in ultramicrostructure membrane expansion microscopy (umExM), facilitating the study of membrane-associated structures and proteins. pGk13a TFA is useful for researching neuronal structures.
Targets(IC50)	Others

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
