

## Fmoc-PEG-Maleimide (MW 1000)

### Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

### Biological Description

Description	Fmoc-PEG-Maleimide (MW 1000) (Fmoc-NH-PEG-Mal (MW 1000)) is a PEG derivative that features an Fmoc protecting group and a maleimide reactive group. The Fmoc group is commonly used to shield amines from unwanted reactions until specific coupling is required. Maleimide forms stable thioether bonds with sulfhydryl (-SH) groups. PEG modification enhances solubility and stability while reducing the immunogenicity of proteins and peptides.
