

Aspartic acid proteinase

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Aspartic acid proteinase is a proteolytic enzyme characterized by its catalytic activity mediated by two critical aspartic acid residues at the active site, facilitating the hydrolysis of protein peptide bonds.
Targets(IC50)	Others

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
