

Fucosyltransferase 6

Chemical Properties

CAS No. : 2178088-82-7

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Fucosyltransferase 6 is an enzyme responsible for the expression of the tetrasaccharide Sialyl-Lewis x (sLex, CD15s) on the surface of leukocytes. The sLex structure is crucial for E-selectin-mediated leukocyte rolling, which is associated with leukocyte extravasation from blood vessels.
Targets(IC50)	Endogenous Metabolite

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
