

D-Ribose-D6

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	D-Ribose-D6 is the deuterated form of D-Ribose. D-Ribose (T4786) is an energy booster that serves as the sugar component of ATP and is widely used as a metabolic supplement in therapies for chronic fatigue syndrome and myocardial energy metabolism. It plays an active role in protein glycation and can induce NF-κB inflammation in a RAGE-dependent manner.
Targets(IC50)	Endogenous Metabolite

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
