

## Chick CB9 of type II collagen

### Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

### Biological Description

Description	Chick CB9 of type II collagen (Chick cyanogen bromide digested peptide 9) is a fragment of a CB-peptide derived from type II collagen, utilized for investigating the B-cell and T-cell epitopes of type II collagen. This product is pepsin-free, making it ideal for studying T-cell epitope specificity through proliferation assays. Additionally, Chick CB9 of type II collagen serves as an antigen for analyzing antibody epitope specificity via ELISA.
Targets(IC50)	Others

**Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins**

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
