

Guanylate Kinase, Porcine

Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Guanylate Kinase, Porcine (EC 2.7.4.8) is an enzyme that transfers phosphorus-containing groups (phosphotransferase) using phosphate groups as the acceptor. It plays a role in purine metabolism. The enzyme uses ATP and GMP as substrates, and its products are ADP and GDP.
Targets(IC50)	Guanylate cyclase

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only · Not for Human or Veterinary or Therapeutic Use
