

## Zuberitamab

## Chemical Properties

CAS No. : 2251143-19-6

Formula:

Molecular Weight:

Storage: Store at low temperature  
Store at -20°C

Actual storage temperature shall be subject to the COA.

## Biological Description

Description	Zuberitamab (HS-20090) is a humanized IgG1 monoclonal antibody targeting CD20. The compound specifically binds to CD20 on the surface of B cells, facilitating the depletion of malignant B cells through antibody-dependent cellular cytotoxicity (ADCC), complement-dependent cytotoxicity (CDC), and the direct induction of apoptosis. In experimental studies, Zuberitamab serves as a potent tool for B-cell depletion to investigate hematological malignancies such as Non-Hodgkin Lymphoma (NHL).
Targets(IC50)	Immunology/Inflammation related

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins
