

Ralpancizumab

Chemical Properties

CAS No. : 1407495-04-8

Formula:

Molecular Weight:

Storage: Store at low temperature
Store at -20°C

Actual storage temperature shall be subject to the COA.

Biological Description

Description	Ralpancizumab is a highly specialized humanized monoclonal antibody target the human proprotein convertase subtilisin/kexin type 9 with exceptional binding affinity and selectivity, inhibition of the interaction between PCSK9 and the low-density lipoprotein receptor across various preclinical experimental models to enhance the clearance of cholesterol from the systemic circulation during strictly monitored laboratory observation periods.
Targets(IC50)	Others

Inhibitor · Natural Compounds · Compound Libraries · Recombinant Proteins

This product is for Research Use Only· Not for Human or Veterinary or Therapeutic Use
