Biological Description

Description	Beauveriolide I is a cyclodepsipeptide that has been found in <i>Beauveria</i> and an inhibitor of lipid droplet formation. It inhibits lipid droplet formation when used at concentrations of 3 and 10 μ M, as well as inhibits cholesterol synthesis (IC ₅₀ = 0.78 μ M), in primary mouse peritoneal macrophages. ^{1,2} Beauveriolide I also inhibits acyl-coenzyme A:cholesterol acyltransferase (ACAT) activity in mouse macrophage membranes (IC ₅₀ = 6 μ M). ²
