Biological Description

Description	AC-264613 is an agonist of the GPCR protease-activated receptor 2 (PAR2). AC-264613(AC264613) suppresses interferon regulatory factor 5 and decreases interleukin-12p40 production by lipopolysaccharide-stimulated macrophages. AC-264613(AC264613) activated PAR2 signaling in cellular proliferation assays, phosphatidylinositol hydrolysis assays, and Ca(2+) mobilization assays, with potencies
