| CAS No. :         | 115956-12-2                                              |        |
| Formula:          | C19H20N2O3                                               |        |
| Molecular Weight: | 324.37                                                   | [] i ſ |
| Appearance:       | no data available                                        |        |
| Storage:          | Powder: -20°C for 3 years   In solvent: -80°C for 1 year | 1119   |
|                   |                                                          |        |

## **Biological Description**

| Description   | Dolasetron (MDL-73147)(MDL-73147) is a serotonin 5-HT3 receptor antagonist.<br>Dolasetron is used to treat nausea and vomiting following chemotherapy. |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Targets(IC50) | 5-HT Receptor                                                                                                                                          |

| Solubility Information |                                                                                                |
|------------------------|------------------------------------------------------------------------------------------------|
| Solubility             | DMSO: 50 mg/mL (154.14 mM),<br>(< 1 mg/ml refers to the product slightly soluble or insoluble) |

#### Preparing Stock Solutions

|       | 1mg       | 5mg        | 10mg      |
|-------|-----------|------------|-----------|
| 1 mM  | 3.0829 mL | 15.4145 mL | 30.829 mL |
| 5 mM  | 0.6166 mL | 3.0829 mL  | 6.1658 mL |
| 10 mM | 0.3083 mL | 1.5414 mL  | 3.0829 mL |
| 50 mM | 0.0617 mL | 0.3083 mL  | 0.6166 mL |

Please select the appropriate solvent to prepare the stock solution, according to the solubility of the product in different solvents. Please use it as soon as possible.
