

Cimdelirsen

Chemical Properties

CAS No. : 2131025-82-4

Formula:

Molecular Weight:

Appearance: no data available

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

Biological Description

Description	Cimdelirsen, a novel ligand-conjugated, hepatic-targeted antisense oligonucleotide under investigation, aims to diminish growth hormone receptor (GHR) synthesis. This inhibits the harmful effects of growth hormone (GH) hypersecretion and lowers circulating insulin-like growth factor-1 (IGF-1) levels in acromegaly patients.
