

WAY-655978

## Chemical Properties

CAS No. : 692869-98-0  
Formula: C<sub>16</sub>H<sub>12</sub>ClN<sub>3</sub>OS  
Molecular Weight: 329.8  
Appearance: no data available  
Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

## Biological Description

|               |                                                                                                                                         |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Description   | WAY-655978 is an intermediate in the generation of immunologically active compounds for the synthesis of biologically active compounds. |
| Targets(IC50) | Others                                                                                                                                  |

## Solubility Information

|            |                                                                                                  |
|------------|--------------------------------------------------------------------------------------------------|
| Solubility | DMSO: 50 mg/mL (151.61 mM)<br>( $< 1$ mg/ml refers to the product slightly soluble or insoluble) |
|------------|--------------------------------------------------------------------------------------------------|

### Preparing Stock Solutions

|       | 1mg       | 5mg        | 10mg       |
|-------|-----------|------------|------------|
| 1 mM  | 3.0321 mL | 15.1607 mL | 30.3214 mL |
| 5 mM  | 0.6064 mL | 3.0321 mL  | 6.0643 mL  |
| 10 mM | 0.3032 mL | 1.5161 mL  | 3.0321 mL  |
| 50 mM | 0.0606 mL | 0.3032 mL  | 0.6064 mL  |

Please select the appropriate solvent to prepare the stock solution, according to the solubility of the product in different solvents. Please use it as soon as possible.
