

## Jatrophane VI

### Chemical Properties

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| CAS No. :         | 210108-90-0                                              |
| Formula:          | C37H48O14                                                |
| Molecular Weight: | 716.77                                                   |
| Appearance:       | no data available                                        |
| Storage:          | Powder: -20°C for 3 years   In solvent: -80°C for 1 year |

### Biological Description

|               |                                                                                                                                           |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Description   | Jatrophane VI is a natural product for research related to life sciences. The catalog number is TN4354 and the CAS number is 210108-90-0. |
| Targets(IC50) | Others                                                                                                                                    |

### Preparing Stock Solutions

|       | 1mg       | 5mg       | 10mg       |
|-------|-----------|-----------|------------|
| 1 mM  | 1.3951 mL | 6.9757 mL | 13.9515 mL |
| 5 mM  | 0.279 mL  | 1.3951 mL | 2.7903 mL  |
| 10 mM | 0.1395 mL | 0.6976 mL | 1.3951 mL  |
| 50 mM | 0.0279 mL | 0.1395 mL | 0.279 mL   |

Please select the appropriate solvent to prepare the stock solution, according to the solubility of the product in different solvents. Please use it as soon as possible.
