

## 6-O-(E)-Caffeoylglucopyranose

### Chemical Properties

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| CAS No. :         | 209797-79-5                                              |
| Formula:          | C <sub>15</sub> H <sub>18</sub> O <sub>9</sub>           |
| Molecular Weight: | 342.3                                                    |
| Appearance:       | no data available                                        |
| Storage:          | Powder: -20°C for 3 years   In solvent: -80°C for 1 year |

### Biological Description

|             |                                                                                                                                                           |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description | 6-O-(E)-Caffeoylglucopyranose is a natural product for research related to life sciences. The catalog number is TN6398 and the CAS number is 209797-79-5. |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|

### Preparing Stock Solutions

|       | 1mg       | 5mg        | 10mg       |
|-------|-----------|------------|------------|
| 1 mM  | 2.9214 mL | 14.6071 mL | 29.2141 mL |
| 5 mM  | 0.5843 mL | 2.9214 mL  | 5.8428 mL  |
| 10 mM | 0.2921 mL | 1.4607 mL  | 2.9214 mL  |
| 50 mM | 0.0584 mL | 0.2921 mL  | 0.5843 mL  |

Please select the appropriate solvent to prepare the stock solution, according to the solubility of the product in different solvents. Please use it as soon as possible.
