

## 5'-O-(p-Toluoyl)-2'-O-acetyl-3'-deoxy-3'-fluoro-6-chlorinosine

### Chemical Properties

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| CAS No. :         | 1612192-06-9                                                     |
| Formula:          | C <sub>20</sub> H <sub>18</sub> ClFN <sub>4</sub> O <sub>5</sub> |
| Molecular Weight: | 448.83                                                           |
| Appearance:       | no data available                                                |
| Storage:          | Powder: -20°C for 3 years   In solvent: -80°C for 1 year         |

### Biological Description

|             |                                                                                                                                                                                         |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description | 5'-O-(p-Toluoyl)-2'-O-acetyl-3'-deoxy-3'-fluoro-6-chlorinosine is a Nucleoside Derivative - Fluoro-modified nucleoside, Halo-nucleoside, 3'-Modified nucleoside; Scaffold and Template. |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Preparing Stock Solutions

|       | 1mg       | 5mg        | 10mg       |
|-------|-----------|------------|------------|
| 1 mM  | 2.228 mL  | 11.1401 mL | 22.2802 mL |
| 5 mM  | 0.4456 mL | 2.228 mL   | 4.456 mL   |
| 10 mM | 0.2228 mL | 1.114 mL   | 2.228 mL   |
| 50 mM | 0.0446 mL | 0.2228 mL  | 0.4456 mL  |

Please select the appropriate solvent to prepare the stock solution, according to the solubility of the product in different solvents. Please use it as soon as possible.
